Find an Email in a Haystack

With MailMeter Investigate you can can search through millions of email messages in seconds, reducing time to find documents and saving you time and money.

Get faster email search requests with MailMeter Investigate

With MailMeter Investigate, performing email search requests has never been faster.

- You can search for specific words within any email message, subject line or attachment instantaneously across the entire email archive even if users have deleted messages from their mailbox.

- You can focus on emails relevant to your case. You do not need to deal with the high costs of locating, rebuilding, loading and searching back up tapes or searching through multiple PST files.

- With MailMeter Investigate you can use your time for high-level activities such as understanding the context of documents, analysing complex situations, and building your case.

Eliminate Unnecessary Costs

MailMeter Investigate can search through millions of email messages in seconds. It can save tens of thousands of dollars per case by dramatically reducing email retrieval requests eliminating the need to hire outsourced firms or paralegals to perform these tedious searches. By reducing the time to find documents, you can reclaim many hours for case strategy.

Confidential, Privileged Tagging

Don't give up more information than you have to in discovery. With **MailMeter Investigate's** tagging feature, you can mark emails as "Privileged" or "Confidential", protecting your information while still providing necessary discovery. You can also mark preliminary search results by case number, or "For Manager Review", or "For Print" or any other label you choose. This can help you organize, assemble and export emails for outside counsel.

> "Waterford Technologies has extended the archiving paradigm… improve email management and enterprise intelligence, enforce greater compliance …and reduce the risks associated with improper email use."

WATERFORD TECHNOLOGIES
Email & File Compliance Solutions

With **MailMeter Investigate** you can:

- Increase legal preparedness and completeness of evidence gathering for litigation.

- Enforce policies regarding email retention and email usage.

- Prove "clean hands" and prove non-existence of email in legal cases.

Easy Interface

"The MailMeter Investigate interface doesn't require complex training. Attorneys, paralegals, clerks, and assistants will be able to use MailMeter Investigate in minutes."

Michael Devitt - IT Director William Fry Solicitors

# You'll Benefit with **MailMeter Investigate**

Faster Discovery

- With this new ability to perform a company-wide "Google-like" email search from a browser, legal professionals can spend less time searching and more time reviewing relevant documents and building a better case.
- Decide quickly if claims are frivolous or without merit.
- Gather data for litigation or Human Resources cases without high costs of legal research fees.

Better Protection

- Privileged, non-relevant or confidential trade secrets can be tagged, so they are not discoverable by outsiders. Limit the ability for opposing counsel to "go fishing" to the detriment of your case.

Easy to use

- MailMeter Investigate is truly simple to use, even for non-technical staff. It provides a powerful search, retrieval and reporting solution all through the simplicity and familiarity of a browser interface.
- Index all email information and content to enable fast, powerful searching by subject line, keyword, to/from, domains, time stamp, etc.
- Be proactive instead of just reactive.
